DIARY NOTES

25X1A

DD/S [REDACTED]

11 October 1960

1. Stan Grogan called to say that NBC was going to do a one-hour television show on the U-2 on 29 November. They want to take pictures of the Administration Building and of the Agency seal and I told him that I saw no objection.

2. Emmett Echols telephoned to say that Eugene Lyons' office at the White House (Mr. Carroll) had telephoned to advise that the International Cooperation Administration was considering some form of separation with compensation legislation and that Mr. Lyons would like for us to brief some ICA people on our proposed plan and, in fact, give them a copy of our regulations. After some discussion and another call to Mr. Carroll we agreed to sit down with ICA representatives and give them the principles of our proposal but not our regulations. I thought that this would be particularly out of order since we do not have final approval to implement our plan. H

3. [REDACTED] was up with a whole new set of regulations on emergency planning which I signed and sent forward for the Director's approval.

6. I advised Emmett Echols that he could go ahead and send General Cabell's [REDACTED] a reject letter for the JOT Program. The letter, however, should leave the door open for other employment possibilities.
